

# AP PLASTIC NURSERY SLAT

GSI AP Nursery Slat is one of the best, robust, and durable floors. Tradition and pioneering in design and manufacture of plastic floors for pig farming.

Nursery flooring produces a warm, dry and comfortable environment for new born to 45 kg. The flooring features traction breaks to prevent injuries to pigs caused by slipping. The ivory color does not hide contaminants and reflects light brightening nursery room interiors.

## SPECIFIC CHARACTERISTICS

## COMPONENTS OF GSI AP NURSERY SLAT FEATURES

**Raised or Flat**

GSI AP Nursery Slat panels provides better udder presentation and piglet safety.

**Locking Panels**

GSI AP Nursery Slat interlock on all four sides to insure that panels stay in place.

**T-Shape Semi - Tapered Slats**

The tapered slat profile prevents accumulation on the underside of the floor and is easily accessible for cleaning.

## GENERAL CHARACTERISTICS OF GSI AP NURSERY SLAT

- ▶ Made from 100% virgin polypropylene, nontoxic with good chemical resistance which is not easily attacked by detergents, solution for disinfection, weak acids or animal urine
- ▶ Easy to clean with a profile that provides better flow of waste
- ▶ Simple installation and dismantling which is practical and fast
- ▶ Light-colored allows quick viewing of any problems with the animals, noticeable through the stool or bleeding
